## **General Disclosures**

The University of Washington School of Medicine also gratefully acknowledges receipt of educational grant support for this activity from the Washington State Legislature through the Safety-Net Hospital Assessment, working to expand access to psychiatric services throughout Washington State.

## **Planner Disclosures**

The following series planners have no relevant conflicts of interest to disclose:

- Denise Chang, MD
- Jessica Whitfield, MD, MPH
- Betsy Payn, MA, PMP
- Esther Solano

Anna Ratzliff MD PhD has received book royalties from John Wiley & Sons (publishers).

# **Overview of Learning Collaborative**

#### Audience:

- Psychiatric Consultants
- Working or hoping to work in integrated care settings

#### Goals:

- Provide ongoing integrated care education (CME available)
- Foster learning and support network
- Support sustainment of integrated care

#### • Structure:

- Monthly lunch hour on 2<sup>nd</sup> Tuesday
  - Didactic topic 20-30 mins
  - Open discussion remainder of time
- Topics repeat every 6 months

## Resources

- AIMS Center office hours
- UW PACC
- Psychiatry Consultation Line
  - **–** (877) 927-7924
- Partnership Access Line (PAL)
  - **-** (866) 599-7257
- PAL for Moms
  - **–** (877) 725-4666
- UW TBI-BH ECHO

## Reminders

- Please keep yourself on mute during the didactic
- If you have a question during the presentation (related to the topic or not) please type it in the chat

# Improving Access to Evidence-Based Behavioral Health Interventions with Bachelor Level Support Specialists Update

Bill O'Connell, Ed.D. Associate Professor Director, Behavioral Health Support Specialist Clinical Training Program

# **Speaker Disclosures**

## Faculty Disclosure

The presenter of this session has NOT had any relevant financial relationships during the past 12 months.

## Funding Acknowledgements

This work is generously supported by Ballmer Group

# **Learning Objectives**

As the result of participating in this session, participants will:

- Explain the rationale for behavioral health workforce expansion at the undergraduate level.
- Identify BHSS competencies with a focus on interventions.
- Discuss legislative updates, rule making process and service recovery processes.
- Summarize BHSS supervisor qualifications and plans for supervisor development.

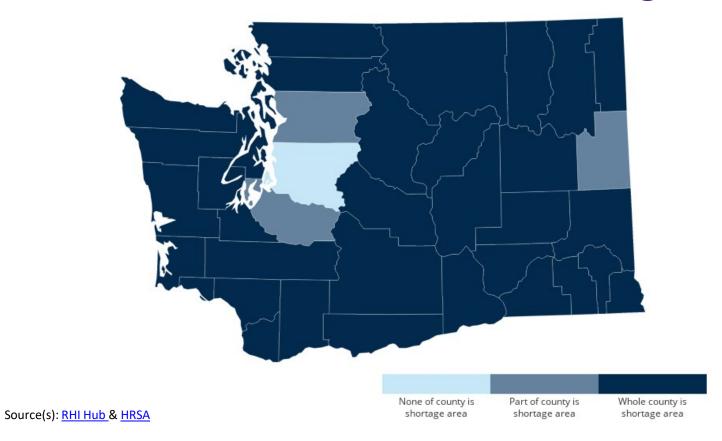

## Overview of Challenge in Washington

**Behavioral Health Workforce Shortage** 

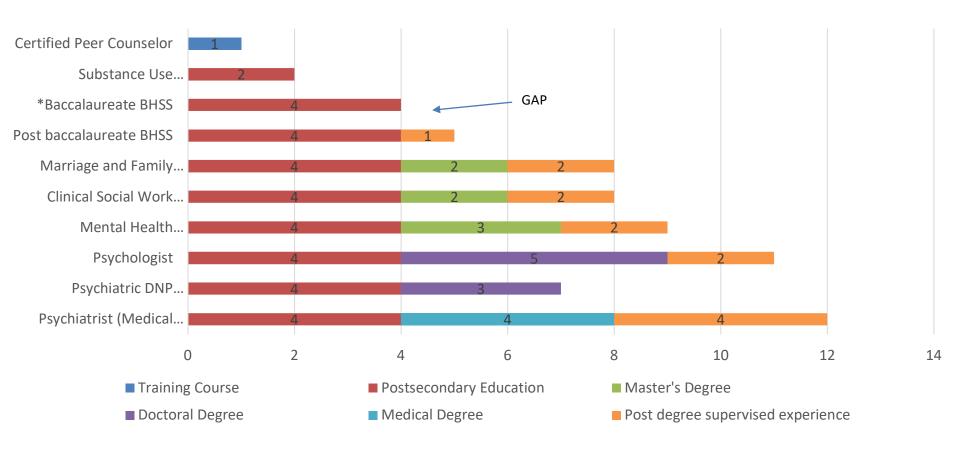

**Need for Full Range of Treatments** 

**Need Increased Access to Care for All** 

## WA Mental Health Provider Shortage Areas

# Typical Education & Training for Licensure for Select Behavioral Health Occupations in WA State after High School

## **Stepped Care Model**

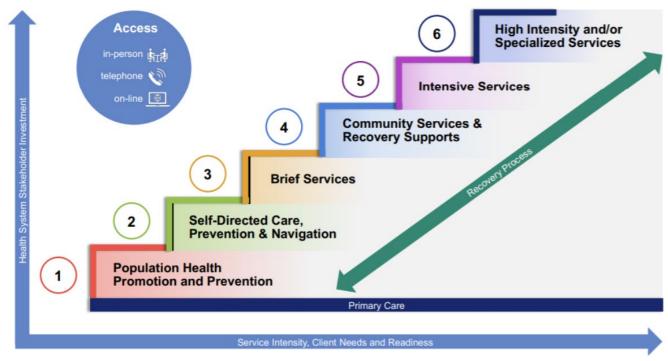

Image Source: New Brunswick Department of Health

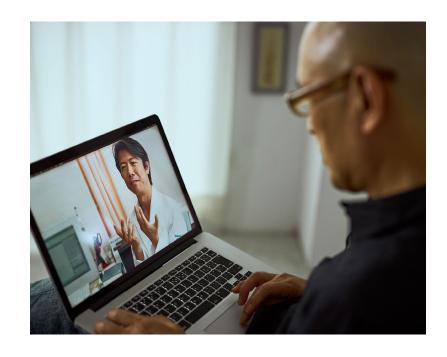

## Behavioral Health Support Specialist (BHSS)

#### **Training/Preparation**

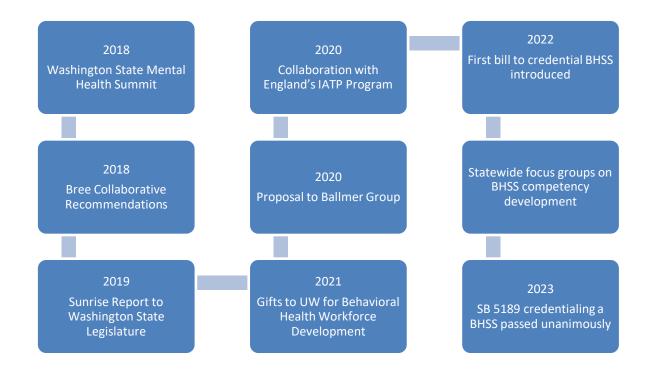

- Four-year degree in Psychology, Social Work, Behavioral Healthcare or Related Degree program
- with BHSS specialization

#### **In Practice**

- Provides brief, culturally responsive, evidence-informed interventions under supervision
- Works with a team using measurement-based care in a stepped care model

## **Timeline for BHSS Development**

### **Evidence for Provider Task Sharing**

- Originally popularized in global HIV/AIDS work
- Extended to mental health care in LMIC
- Some application in rural and low-resourced settings in US and other high-income countries
  - Community health workers (CHW)
  - Promotoras
  - · Behavioral health aides
- Research demonstrations in US

World Health Organization. Task shifting: Global recommendations and quidelines. 2008.

#### Our Preliminary Work

#### **Behavioral Activation Strategies for Depression**

- Trained 18 undergraduates over 9 weekly class sessions
  - Over half (62.5%) passed rating by the seventh class;
  - The majority (82.4%) rated as competent by 9 weeks
- N = 4 retained as "coaches"
  - 100% retention; high ratings of feasibility & acceptability
- Pilot trial with 12 patient participants with depressive symptoms
  - 6 weekly sessions
  - 10 completed treatment
  - Large effects sizes of <u>decreased depression</u> and <u>increased</u> <u>activation</u>

Renn BN, Sams N, Areán PA, & Raue PJ. (2023). Aging Ment Health. 2023 July; 27(7):1403-1410.

Ongoing Work: Intervention for Anxiety Conditions

#### **CBT Strategies for Anxiety**

- Pilot trial
  - 7 coaches trained
    - Final fidelity ratings underway
  - Recruitment for patient participants launched
- 8 weekly sessions with pre- and post-assessment
- Exit interviews with patient and coach participants to further evaluate intervention and implementation considerations

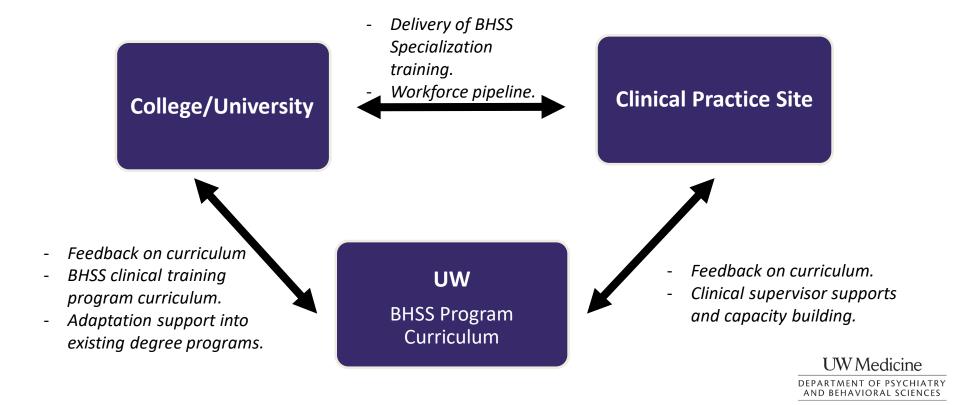

Designing and
Implementing
Curriculum for
BHSS Specialization

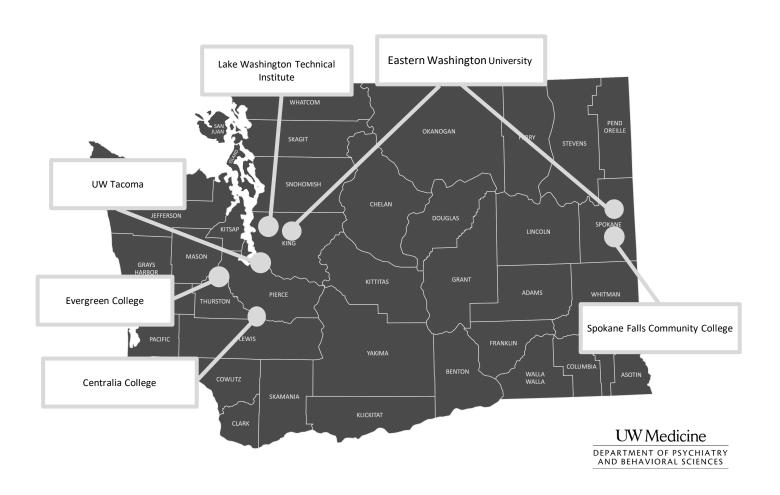

# Meta-Competencies (MC)

- 1. Health Equity
- 2. Helping Relationships
- 3. Cultural Responsiveness
- 4. Team-Based Care and Collaboration
- 5. Screening and Assessment
- 6. Case Management and Care Coordination
- 7. Interventions
- 8. Legal, Ethical and Professional Issues

## Statewide Collaboration & Implementation

#### **Education Partners**

## Curriculum Map for BHSS Clinical Training Program

**Meta-Competencies** 

MC1: Health Equity MC5: Screening and Assessment

MC2: Helping Relationships MC6: Care Planning and Care Coordination

MC3: Cultural Responsiveness MC7: Intervention

MC4: Team-Based Care and Collaboration MC8: Law, Ethics, & Professional Practice

Competency	Learning Objectives		-BHSS	ations	anced	ticum
4-b: Practice interprofessi	onal con	nmunication.				
Keywords:  Professional Development  Supervision  Team-Based Care	4b2-K	Describe how communication affects team processes and patient care and outcomes.	NA	I, R, P		
	4b4-S	Effectively and succinctly share information with the interprofessional team using a team-appropriate process (For example, SBAR (Situation-Background-Assessment-Recommendations).	NA	NA	I, R	Р
	4b6-A	Value brief, clear, concise, and timely communication between team members.	NA	1	R	Р

**BHSS Curriculum** 

**Rationale for Credentialing** a BHSS

# Credentialing

- Bachelor-level credentials already exist in many states.
- In WA, there are barriers to billing in group practices that do not identify as specialty mental health settings.
- Project Goal: Identify pathways to support full spectrum of care

## **BHSS Workforce Development**

- SSB 5189
  - Established BHSS as a new WA provider type
- UW Psychiatry & Behavioral Sciences
  - Leading BHSS Clinical Training Program development
- Higher Education Partners
  - Deliver BHSS Curriculum
- Behavioral Health Community Partners
  - Host BHSS Practicum/Internships
- Department of Health and Health Care Authority
  - Oversee BHSS credential & modify State plan to include BHSS

## **VISION**

#### **Goal:**

50 providers trained and 40 providers in practice by July 2026

Contact: BHSSWA@uw.edu

Team Contacts: Bill O'Connell & Savanah Tidwell

#### **Integrated Care Training Program**

# **Supervisory Skills**

- Understand brief, evidence-based interventions.
- Support fidelity to the clinical interventions.
- Support BHSS clinical practice through measurement-based care and decision-making regarding patient disposition.
- Adopt a developmental view of supervision encouraging supervisee to gradually build skill over time.
- Adopt a strength-based approach to supervision akin to work with patients focusing on successful interventions to reinforce practice.
- Coach the BHSS on professional and ethical practice.

# **Takeaways**

- The BHSS will help fill a gap in the behavioral health workforce career ladder.
- A BHSS works in a team-based, stepped care model under supervision.
- Service recovery guidelines will emerge over time.
- Supervisor development will be critical to the success of the BHSS.
- We are seeking practicum partnerships on behalf of our education partners across the state.

## **Communication Avenues**
