What makes the WA Portal different?

While there are many other national websites and programs focused on practice transformation, the Healthier Washington Collaboration Portal, WA Portal, is different for several reasons.

THE WA PORTAL: A PLATFORM TO SUPPORT TRANSFORMATION

- Commitment to support transformation partnerships
- *One stop shop* to assist with transformation / collaboration needs
- Built through collaboration with primary care, community behavioral health, and other organizations across Washington
- Flexibly enhancing features to maximize enduser participation

FEATURES/FUNCTIONALITIES – SUPPORTING TRANSFORMATION

Steering Toward Success

A one day conference designed to help primary care practices, behavioral health providers and interested stakeholders who are transitioning to whole person care. Sessions focus on topics supporting behavioral health integration for primary care settings, physical health integration for behavioral health settings and value-based payment models.

Continuing education credits are available:
CME - CNE - #NASW #

Presentations and Materials from September 25 and October 26 Conference
Hotel Murano, Tacoma

RESOURCE LIBRARY

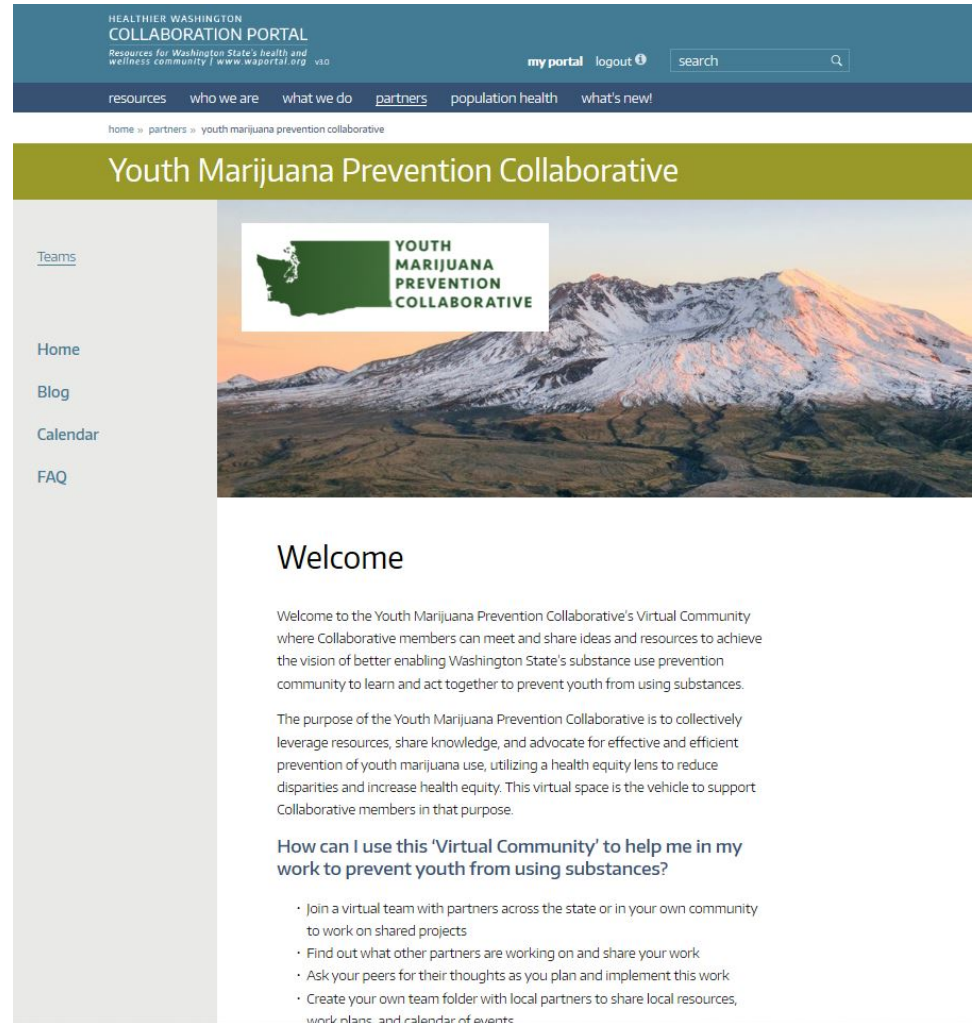

- Digital library of resources curated by members of the Washington healthcare community
- Targeted to specific transformation efforts
- Search tool developed in response to user feedback

The screenshot displays the 'Resources' page of a digital library. At the top, there is a search bar containing the word 'opioid' and a 'SEARCH' button. Below the search bar, there are three navigation tabs: 'Value Based Payment', 'Behavioral/Physical Health Integration', and 'Practice Transformation'. The 'Behavioral/Physical Health Integration' tab is currently selected. On the left side, there is a 'Search Filters' section with three main categories: 'Value Based Payment', 'Behavioral/Physical Health Integration', and 'Health / Wellness Topics'. Each category has a 'Select All' link and a list of sub-filters with checkboxes. The 'Behavioral/Physical Health Integration' category is expanded, showing sub-filters like 'Clinical Tools', 'Integration Models', and 'Integration Tools'. The 'Health / Wellness Topics' category is also expanded, showing sub-filters like 'Chronic Disease Prevention and Control', 'Community-Based Care Coordination', 'Opioid Use', 'Palliative Care', 'Provider Burnout', 'Reproductive Health Maternal & Child', 'Team Based Care', 'Transitional Care', 'Quality Improvement', 'Practice Organization', 'Population Health', and 'Electronic Health Records'. The main content area on the right shows '19 resources match your criteria.' and lists three resources: 'CALCULATING TOTAL DAILY DOSE OF OPIOIDS FOR SAFER DOSAGE', 'CDC Guideline for Prescribing Opioids for Chronic Pain – United States, 2016', and 'CDC Online Training Program for Opioid Prescribing'. Each resource has a brief description.

[FAQ](#)

Welcome

Welcome to the Youth Marijuana Prevention Collaborative's Virtual Community where Collaborative members can meet and share ideas and resources to achieve the vision of better enabling Washington State's substance use prevention community to learn and act together to prevent youth from using substances.

The purpose of the Youth Marijuana Prevention Collaborative is to collectively leverage resources, share knowledge, and advocate for effective and efficient prevention of youth marijuana use, utilizing a health equity lens to reduce disparities and increase health equity. This virtual space is the vehicle to support Collaborative members in that purpose.

How can I use this 'Virtual Community' to help me in my work to prevent youth from using substances?

- Join a virtual team with partners across the state or in your own community to work on shared projects
- Find out what other partners are working on and share your work
- Ask your peers for their thoughts as you plan and implement this work
- Create your own team folder with local partners to share local resources, work plans, and calendar of events

Virtual Learning
Community Blog

The WA Portal is a comprehensive resource for all of Pierce County ACH partners. Through this portal you will be able to access the Pierce County ACH Calendar, Webinars, the Integrated Managed Care (IMC) Learning Network, links to the Institute for Healthcare Improvement, and Life QI. In addition, you will have the ability to setup your own team page to save documents, share resources and collaborate within a secure discussion space. We look forward to supporting all of our partners on Medicaid Transformation and collaborating to determine best practices and methods for addressing whole-person care in both rural and urban communities of Pierce County.

Welcome to the WA Portal!

To create a new My Portal user account please register using your email address and provide the required information below. (If your work is not associated with an Accountable Community of Health, click "I don't know" in the **Your ACH** field.) You'll receive an email, which will include a one-time password, from the_team@waportal.org. You may need to add this address to your safe senders folder. If you do not receive the email within 24 hours, please check your spam folder before requesting assistance. Please be aware that My Portal provides a password-protected collaboration space. It is not HIPAA compliant, though.

Thanks for joining the collaboration!

This looks like a great resource - how would I use it?
Reply
It seems to complex for real practice

I want to refer to this as a discussion point. I see the document in this exchange but how can I add this to the team documents or to my dashboard would be great. However, let's table it until we can discuss as a team.

[The New World of Value-Based Purchasing](#)

[Dan Lessler, MD, MHA; John Espinola, MD, M](#)

Introduction to Practice Transformation: The rapidly changing healthcare environment is transforming clinical practice to meet the quadruple aim: better care, better patient experience, better practice. This module introduces the learner to the key elements of practice transformation and the Medical Home (PCMH).

Introduction to Practice Transformation View Module	Quality Improvement View Module	Population Management View Module
Patient and Family Centered Care View Module	Team Approach to Care View Module	Integrated Care View Module
Coordinated Care View Module	Access to Care View Module	Condition My Health Management Support View Module
Leadership Skills View Module	Personal Clinician View Module	

Access to Care: Improving patient experience, patient and family centered practice transformation, busy primary care practices, primary care advanced access, patient panel size, and include e-Medicine's e-visit curriculum.

Integrated Care: The vast health needs are seen in primary care, behavioral health in primary care, health care redesign efforts, this module will cover the key elements of health integration.

Care Coordination: Coordinating care is a challenging as patient care is complex, consultation to multi-professionals will discuss models of care coordination in the health care system.

Leadership Skills: Engaged leadership in transformation and navigating the landscape. Leadership in a different approach, and this is to lead and manage change.
